

Geography Edexcel B GCSE (9-1)

<http://qualifications.pearson.com/en/qualifications/edexcel-gcses/geography-b-2016.html>

Geography Year 10/11 – will be now move into their final two years of the course – full details can be found the Moodle site – with numerous website links:

Year one

What we will be learning;

- Hazardous Earth – Climatic and Tectonic Hazards
- Development Dynamics
- Challenges of the Urbanising World

How we will be learning:

Students will learn through using a variety of teaching styles, these include individual, pair and group work, independent computer & book project work. Active learning includes making models & animations using ipods & play doh, watching news clips, mini movies/songs and you tube, drawing diagrams, sketches and labelling photos, discussion and role play and by going on a field trip to a coastal location. All learning habits will be used at some point during the scheme of learning.

Try This at home:

HL booklet is on moodle, students must complete a wide variety of tasks including exam style questions, independent research projects, producing case study fact files, revision using links on moodle, watching clips on you tube etc.

Year two

What we will be learning;

- UK Human Environments
- The UK's Evolving Physical Issues - River Processes and Pressures
- The UK's Evolving Physical Issues - Coastal Change and Conflict
- Practical fieldwork enquiry (Exeter trip for Y10 Summer Term)
- Practical fieldwork enquiry (Slapton Trip) for Y10 Summer Term

How we will be learning:

Students will learn through using a variety of teaching styles, these include individual, pair and group work, independent computer & book project work. Active learning includes making models & animations using ipods, watching news clips, mini movies/songs and you tube, drawing diagrams, sketches and labelling photos, discussion and role play and by going on a field trip to an urban location. All learning habits will be used at some point during the scheme of learning
