Dear Parent/Carer

REMOTE LEARNING SURVEY FEEDBACK

Earlier in the term we asked you for your feedback regarding our remote learning provision.

In the region of one hundred families responded to this request and we are very grateful to you for your comments and thoughts.

I have attached a document that we have put together in response to the survey outcomes to include some FAQs regarding live learning and feedback, as well as some 'top tips' to support your child's learning (which many of you asked for) and a couple of useful links to support well-being.

It is a long document but hopefully you will be able to flick through it to find relevant sections to answer your questions.

Do please continue to feedback to us so we can review our practice and improve our provision and please do not hesitate to contact us if you have a specific question or concern which we may not have covered here.

Best wishes

Rebecca Flint
