

25 January 2022

Dear Parent / Carer

Please find below a message from the Immunisation Team.

Your **Year 9** child may be outstanding a dose of the HPV (Human Papilloma Virus) vaccine. The school Aged Immunisation Team will be visiting your child's school on **Thursday 3 February** to offer catch up HPV vaccinations to any **Year 9** child who is still due their first or second dose.

If you have **not** previously completed an HPV consent form and your child has not yet received either their first or second dose of HPV, please complete our online consent following the link below:

<https://schoolimms.virginicare.co.uk/hpv/2020/Devon>

**Please note this link will close on Sunday 30 January at midnight.**

If you have previously completed a consent form for our team and your child is still due their first or second dose of HPV and you would still like them to receive it, you **DO NOT** need to complete another consent, your child will be vaccinated at their school using their existing consent.

If you do **NOT** want your child to receive the vaccine then please also complete a form stating that you do not want them to receive the vaccine, this means we will not chase further.

If the link is not working for you, please try to copy and paste it into your internet address bar. If it continues not to work **OR** you are having any other problems then please contact our designated team on **0300 247 0082** and they will be able to help.

Thank you

School Aged Immunisation Team
