

26 May 2022

Dear Parent / Carer

In the two weeks after the half term break, Year 7 and Year 8 will be doing their end of year assessments in Science.

For Y7 this will be in the first week back (w/b 6 June) and for Y8 it will be the week beginning 13 June 2022. The purpose of the assessment is to assess how well students have grasped the knowledge and skills covered in Key Stage 3 and to inform our planning for next year.

The assessments will be completed during lesson time and will cover a range of topics studied over the year, with a focus on scientific working skills.

There is no expectation for huge amounts of revision to be carried out. However teachers will set an assignment on Seneca that will help to prepare students.

If you have any questions about this, please do not hesitate to get in touch.

Regards

Ged Desforges  
Deputy Head of Science
