Empowering everyone to be the best they can be.

4 March 2024

Dear Parent / Carer

RE: GREENPOWER KIT CAR EVENT

The Greenpower Education Trust is a UK based charity which gets young people enthusiastic about science and engineering by challenging them to design, build and race an electric car. Your son has regularly supported the Greenpower Kit car Club in school and we are at the stage where we have a working vehicle and we have entered an event at Castle Combe on Sunday 2 June 2024.

The race event promises to be a fantastic day where the students' dedication to the club will be rewarded with them driving the kit car on an actual racetrack with other drivers for a chance to win The Spirit of Greenpower award.

I am hoping that you will be able to support the team with the logistics on the day of the race. Specifically, transporting your child to and from the event (it will be an early start!) and also to transport the kit car to Castle Coombe. Mechanical engineering support might also be required on the day. There is no cost for spectators and supporters.

We are running this club on a pretty tight budget and there are still a few items that we need to source - if you are able to help find any of the following resources cheaply, to borrow, or even better - free, then we would very thankful:

- 5 x teenage size boiler suits
- 3 x full visor helmets
- 5 x baseball caps
- A pair of wing mirrors
- A gazebo (our HQ1/Workshop)

Thank you in advance for your support.

Best wishes,

Des Stokes
GreenPower Team Manager
