

13 March 2026

Dear Parent / Carer

Year 12 Spring Mocks – Chemistry

I am writing to inform you that Year 12 Chemistry students will sit two rounds of AS mocks this year; the format for these can be found below.

We have followed this model in previous years with great success, and we believe that providing students with more exposure to A Level exam questions in exam conditions equips them well for their final exams at the end of Year 13. In addition, we will use these mock examinations as diagnostic assessments from which we can identify and close any gaps in knowledge and understanding before we commence Year 13 teaching after May half-term.

We are aware that some students may be sitting public AS examinations and we have already stressed the importance of prioritising public examinations over the mock.

The dates of the April/May mocks will be:

- Tuesday 29 April
- Tuesday 5 May

The dates of the June mocks are yet to be finalised but will take place in the weeks commencing:

- Monday 15 June
- Monday 22 June

If you have any questions regarding the above mocks or A Level Chemistry, please contact us using the details below.
