

ATRIUM STUDIO SCHOOL

A 'GOOD' school with 'OUTSTANDING' personal development, behaviour and welfare of students
OFSTED 2018

Do you want to find a job that you love so that you never have to "work" again?

Love Art and Design or Graphics? Do you see yourself as creative and curious? Fancy applying Maths and Science skills to real-life projects that you will remember, instead of just learning out of a textbook?

Word is spreading about our award-winning school as we continue to bridge the gap between education and the workplace!

Atrium benefits from all the specialist subject teaching and academic rigour you would expect from a large successful secondary school, enhanced by the advantages and bespoke support of a smaller setting. We have an outstanding learning environment where students learn *in* the building and *from* the building. Students have the crucial individual staff contact that they need to ensure success. Our use of industry-standard software and technology has already led to employers 'head hunting' our students, who leave school ready for both work and life.

"I don't argue with my daughter about doing homework any more. The teachers help the students complete their work to a higher standard at school due to the extended hours so we can have more family time."
Parent

"Enthusiastic pupils with creative problem solving"
**Ed Brown Development
Manager, Cavanna
Homes**

"It's a real joy to hear his enthusiasm about the day at school and the support he feels he gets at Atrium"
Parent

"I recently had an enthusiastic update from a 2018 6th Form leaver who is now in paid work with one of our industry partners. They sponsor his travel and course costs at university. He earns while he learns!"
S Morcumb, Acting Principal

Open Evening

Thursday 22nd November 2018, 4.30 - 7.30pm
